# EVENT DASHBOARD

## Product Requirements Document

Equestrian Event Management Platform

| | |
|---|---|
| **Version** | 1.0 — Initial Release |
| **Date** | 2025 |
| **Status** | Draft for Review |

# 1. Product Overview

The Event Dashboard is a comprehensive equestrian event management platform designed to streamline the end-to-end lifecycle of equestrian competitions — from event creation and club registration to rider management, horse tracking, stable booking, and financial reporting.

## 1.1 Objectives

- Centralize event management for administrators, clubs, and riders on a single platform.
- Automate registration workflows, payment tracking, and financial reconciliation.
- Provide real-time analytics and reporting across all modules.
- Enforce role-based access to ensure data integrity and operational security.
- Support audit logging to maintain a full trail of administrative actions.

## 1.2 User Roles

| Role | Description | Primary Access |
|---|---|---|
| Admin | Full platform control, financial oversight, and configuration management. | All modules |
| Club | Manages club profile, affiliated riders, and horses. Views event registrations. | Club, Rider, Horse, Events |
| Rider | Personal portal for event registration, horse management, and profile updates. | Rider Portal |

## 1.3 Navigation Structure

The application exposes the following top-level navigation items to Admin users:

| Dashboard | Events | Clubs | Riders | Horses | Financial | Users | Settings | Account |
|---|---|---|---|---|---|---|---|---|

# 2. Dashboard Module

The Dashboard serves as the command centre for platform-wide activity. All dates are highlighted consistently for visual prominence.

## 2.1 KPI Summary Cards

| Metric | Description |
|---|---|
| Total Events | Aggregate count of all events on the platform. |
| Clubs Registered | Total number of clubs onboarded. |
| Riders Registered | Total number of active riders. |

| Metric | Description |
|---|---|
| Horse Count | Total horses registered across all clubs and riders. |
| Total Revenue | Sum of all collected payments. |
| Collectible Amount | Outstanding payments yet to be collected. |

### 2.2 Charts & Graphs

- Bar graph: Per-event breakdown of Unpaid registrations, Total Riders, and Total Horses.
- Monthly revenue trend graph.
- Registration trend graph over time.
- Upcoming event countdown timer.
- Most active club and most active rider highlights.

### 2.3 Event Lists

- Current Events — Displays event name and timestamp for ongoing events.
- All Events — Full chronological list; clicking an event navigates to the Event Detail page.

### 2.4 Participants List

A filterable, paginated table of all event registrations.

| Column | Details |
|---|---|
| Event | Name of the event. |
| Event Date | Scheduled date (highlighted). |
| Rider Name | Full name of the registered rider. |
| Club Name | Associated club. |
| Horse Name | Registered horse for the event. |
| Event Category | Competition category entered. |
| Price | Registration fee charged. |
| Payment Status | Paid / Unpaid indicator. |

*Filters: Month & Year | Select Event | Event Category | Payment Status*

## 3. Event Module

### 3.1 Events List

Searchable and filterable list of all events with the following table columns:

| Column | Details |
|---|---|
| Event Name | Full event title. |
| Start Date | Event commencement date. |
| End Date | Event conclusion date. |
| Status | Published / Not Published toggle. |
| Actions | Dropdown: View \| Duplicate \| Edit \| Disable |

## 3.2 Add Event — Form Sections

### Section 1: Event Information (All Mandatory)

| Field | Type / Notes |
|---|---|
| Event Type | Dropdown — KSEC \| EPL \| EIRS Show |
| Event Name | Text input |
| Description | Text area |
| Start Date & Time | Date/time picker |
| End Date & Time | Date/time picker |
| Event File | File upload — Max 2MB |

### Section 2: Event Venue

- Address field — freeform text.
- Google Maps integration with a pin-drop selector.

### Section 3: Terms & Conditions

- Rich-text editor (Microsoft Word-style toolbar) for inputting detailed T&Cs.

### Section 4: Event Category

- Category selection dropdown (populated from Settings).
- Category-specific competition date picker.

## 3.3 Event Detail Page

### DIV 1 — Event Summary

| Field | |
|---|---|
| Event Image | Hero banner |
| Event Name | |

| Field | |
|---|---|
| Event Type | |
| Start / End Date | |
| Status | Published / Not Published |

**DIV 2 — Registered Members Table**

Columns: Rider Name | Club Name | Event Date | Payment Status | Event Category | Total Amount | Action

Action modal reveals expanded booking details:

- Event Name, Event Date, Club Name.
- Stable booking: Date, Number of Stables, Price per stable.
- Rider Name, Horse Name, Event Category, Total Amount.
- Financial summary: Event Amount | Stable Amount | GST Amount | Sub-total.

Additional controls: Registered Members count | Filter by Payment Status | Export as CSV / Excel.

**DIV 3 — Prospectus**

Placeholder section — content to be defined in a future iteration.

# 4. Club Module

## 4.1 Club List

Searchable, filterable, paginated table with CSV / Excel export.

| Column | Notes |
|---|---|
| Club Name | |
| First Name | Primary rider contact |
| Last Name | |
| Email | Rider email |
| E_ID | e.g. EIRS143 |
| Club Code | e.g. SETA |
| Actions | View \| Edit |

## 4.2 Club Detail View

**DIV 1 — Club Profile**

- Club Name, Description, Address, Email.
- Primary contact: First Name, Last Name, Gender, DOB, Email.

**DIV 2 — Tabbed Lists**

Two tabs: Riders List and Horse List, each with an Add button.

| Riders List Columns | Horse List Columns |
|---|---|
| Rider Name | Horse Name |
| Email ID | Horse Color |
| EFI Rider ID | Passport Number |
| Gender | Horse Sex |
| DOB | Birth Year |
| Mobile Number | — |

### 4.3 Add Club Form (All Mandatory)

**Primary Contact**

- First Name, Last Name, Gender, DOB, Mobile Number, Email.

**Club Information**

- Club Name, Club Short Code (auto-generate option e.g. SETA, KSEC01).
- Club Registration Number (if applicable).
- Club Contact Number, Club Email, Club Address.
- City, State, Country, Pincode.
- GST Number (optional), Club Logo (Max 2MB), Club Description.

### 4.4 Add Rider (from Club) — All Mandatory

- First Name, Last Name, Email, EFI Rider ID, DOB, Mobile Number, Gender, Address.

### 4.5 Add Horse (from Club) — All Mandatory

- Horse Name, Horse Color, Year of Birth.
- Horse Passport Number (or checkbox: Use Horse Code instead of Passport Number).
- Horse Gender — Stallion | Mare | Gelding.

## 5. Rider Module

### 5.1 Rider List

Searchable, filterable table with CSV / Excel export and an Add Rider button.

| Column | Notes |
|---|---|
| Rider Name | Full name |
| Club Name | Associated club (nullable) |
| Email ID | |
| EFI Rider ID | Federation ID |
| E_ID | Platform internal ID |
| Actions | Edit \| Delete |

### 5.2 Edit Rider Form

- First Name, Last Name, Email, EFI Rider ID, Date of Birth, Mobile Number, Address, Gender, Aadhaar Number.

## 6. Horse Module

### 6.1 Horse List

| Column | Notes |
|---|---|
| Horse Name | |
| Rider / Club Name | Shows both if applicable |
| User Type | Rider or Club |
| Color | |
| Passport Number | |
| E_ID | Platform ID |
| Horse Sex | Stallion \| Mare \| Gelding |
| Birth Year | |
| Actions | Edit \| Disable |

### 6.2 Edit Horse Form

- Horse Name, Color, Year of Birth.
- Passport Number OR Horse Code (checkbox toggle).
- Gender — Stallion | Mare | Gelding.

## 7. Financial Module

Centralised financial overview for all event transactions.

### 7.1 Filters

- Select Event | Select Event Category | Payment Status.

### 7.2 Transaction Table

| Column | |
|---|---|
| Event | |
| Event Date | |
| Rider Name | |
| Club Name | |
| Horse Name | |
| Event Category | |
| Price | |
| Payment Status | Paid / Unpaid |

Controls: Search bar | Export button (CSV / Excel).

## 8. Users Module

| Column | |
|---|---|
| Name | |
| Role | Admin \| Club \| Rider \| Custom |
| Mobile No | |
| Email ID | |
| Gender | |
| Actions | Edit \| Delete |

Controls: Filters | Export | Add User button.

## 9. Settings Module

| Settings Section | Fields / Description |
|---|---|
| Venue | Address field for the default venue. |
| Stable | Number of stables, price per stable. |
| Timings | Event Start Time, Event End Time, Cut-off Time (hrs), Registration Closing Time (hrs). |
| Event Types | Table: Event Type \| Short Code \| Actions. CRUD with Add Event Type button. |
| User Roles | Table: User Role \| Actions (Delete). Add Role button. |
| Event Categories | Table: Category \| Price \| CGST% \| SGST% \| IGST% \| Actions. Add Category button. |
| Terms & Conditions | Rich-text input field. |

## 10. Account / Profile Page

Available to all authenticated users.

- Name, Designation, E_ID.
- Personal Info: DOB, Gender, EFI Rider ID, Mobile, Email, Address.
- Edit Profile option.

## 11. Rider Portal

A dedicated interface for riders to manage their personal event and horse activity.

### 11.1 Dashboard

| Widget | Details |
|---|---|
| Horse Count | Total horses owned. |
| Events Count | All events on platform. |
| Events Participated | Historical participation count. |
| Registered Events | Current/upcoming registrations. |

### 11.2 Tabs

- My Events — Personal registrations with Paid / Unpaid status.
- My Horses — Horse list with Add Horse button.
- Events — Browse all available events with a See All Events button.
- Featured Events — Curated/promoted events.

### 11.3 Add Horse (Rider)

- Horse Name, Color, Year of Birth, Passport Number.
- Gender — Stallion | Mare | Gelding.
- Option: Use Horse Code instead of Passport Number (checkbox).
- Agreement: Accept Terms & Conditions (mandatory checkbox).
- Upload Supporting Documents (optional PDF).

### 11.4 Rider Profile Page

- Name, Designation, DOB, Mobile, Gender, Email, Address, E_ID, EFI Rider ID.
- Edit Profile option.

## 12. Advanced Features & Enhancements

### 12.1 Audit Logs

All critical administrative actions must be logged to ensure legal and operational accountability.

| Action | Tracked Fields |
|---|---|
| Event Edited | User, Timestamp, Fields Changed |
| Payment Status Changed | User, Timestamp, Old → New Status |
| Rider / Horse Disabled | User, Timestamp, Entity ID |

### 12.2 Role-Based Access Control (RBAC)

Granular permissions beyond top-level roles:

| Permission | Description |
|---|---|
| Can Edit Event | Modify event details after creation. |
| Can View Financial | Access the Financial module. |
| Can Export | Download CSV/Excel reports. |
| Can Publish | Toggle event published status. |

### 12.3 Stable Management

- Stable availability calendar view.
- Blockout date management.
- Stable occupancy reports.

### 12.4 Dashboard Enhancements

- Monthly revenue graph.
- Registration trend graph.
- Most active club / most active rider highlights.
- Upcoming event countdown timer.

## 13. Non-Functional Requirements

| Requirement | Detail |
|---|---|
| Security | HTTPS enforced. Data encrypted at rest and in transit. Session expiry controls. |
| Performance | Page load under 2 seconds for list views with 1,000+ records. |
| Accessibility | WCAG 2.1 AA compliant UI components. |
| Scalability | Horizontally scalable backend to support peak event registration loads. |
| File Uploads | Max 2MB per file. Supported formats: PDF, JPG, PNG. |
| Export | CSV and Excel export available across all major list views. |
| Audit Logging | All admin actions logged with user identity and timestamp. |
| GST Compliance | Financial module must correctly compute CGST, SGST, IGST per transaction. |
